

## 2020-21 GOALS AND OBJECTIVES

### Board of Education:

1. To support our administrators and the district in providing challenging academic content that promotes critical thinking and academic growth through in person and virtual instruction for all students.
2. Support district administration, staff, and teachers with mandates and challenges related to COVID-19 including health and safety, virtual learning, student engagement/success, and mental/emotional health of all.
3. To implement training and professional development that cultivates a community of learners who possess the traits that characterize a positive culture including, but not limited to inclusivity and equity.
