Internet Use Release Permission Form

To enhance student learning opportunities, the Little Falls School District provides student access to the Internet. Student access is designed for educational purposes and the District has taken steps to shield controversial materials, however, parents and guardians should know that it is impossible to restrict access to all controversial materials. The Little Falls School District is not responsible for materials acquired by students on the Internet. Students will be instructed in the proper Internet use.

If your child abuses his/her Internet privilege, the school district will deny your child access to the Internet while in school.

_____ I **give** permission for my child to use the Internet in class for school related work.

_____ I **do not give** my child permission to use the Internet.

This form will be maintained during your child's entire school enrollment in the Little Falls School District. If you should decide at any point to change your decision, send a letter to the school your child is attending.

Date: _____

Student Name: _____
